

My Victorian Portrait

Draw your idea for a victorian portrait in the square below.

A **subject** is **who** or **what** is drawn in a picture. Here at the McManus Galleries you can see lots of different paintings in our Victoria Gallery where the subject is a person. These are called **portraits**.

You can tell a lot about a person from their portrait, whether they are **rich** or **poor**, **where they live**, **what their job is**, and even **how they are feeling**. How will you show these things in your portrait?
